

Research Projects

1. Postdoctoral Research Project entitled: “*Synthesis and characterization of perovskite high entropy oxides and investigation of their proximity effect with high- T_C superconductors*” (PN-III-P1-1.1-PD-2021-0238, Project Responsible, Period: 2022-2024, Grant amount: 50.000 EUR) Financed by UEFISCDI, Romania.
2. UVT Scholarship in the Advanced Postdoctoral Research Program (Grant amount: 30.000 EUR), Project Responsible, Period: 2022-2024, Financed by West University of Timisoara, Romania.
